Nov 15th, 2014

November 15th, 2014 (Ebisu, Tokyo, Japan) – On November 22nd, Tokyo-based contemporary art gallery Fm launches its third exhibition, “Our Eyes, The Light Source”, solo exhibition by Ai Teramoto.

Following graduation in 2012 from Musashino Art University Dept. of Scenography, Space and Fashion Design, Teramoto, one of the most prominent young artists, has continued remarkable activities. She won the grand prix at “1_WALL” in 2013, the annual grand prix at “THE CHOICE” in 2014, and exhibited solo exhibition “PERMANENT CULTURES” at GUARDIAN GARDEN and “SPORTS” at Lamp harajuku Gallery, and joined an exhibition, “SHOWCASE” at ex-Daikanyama Loveria Annex.

Teramoto draws a figure with fashion she creates. She learned the fashion at the university, and has created clothing and ornament reminiscent of ethnic costumes around the world and. The motif is deformed and drawn in black and white. As a result, the shape and texture is highlighted.

A figure in the artwork Teramoto creates has a distinctive eye. This is because Teramoto believes our eyes are the light source of our creation. In fact, Teramoto interprets through her eyes documents explaining a variety of clothing and ornament element, and incorporates into her works.

In this exhibition, new works in addition to works Teramoto has created will be exhibited. Please appreciate the fashionable and serene world in black and white.

About Fm

Fm is founded by Hirokazu Morita, a graduate of the business school at the University of Chicago (MBA), and Masumi Sasaki, a gallerist who previously worked at Tokyo Gallery+BTAP, the oldest contemporary art gallery in Japan.

Fm's mission is to create a society full of creativity, intelligence, and cultural education, where people can be immersed in contemporary art on a daily basis.

As the first step, in 2014, we opened a gallery at Ebisu in Tokyo. To realize our mission, we create an environment where more artists can flourish and grow into artists that go down in history. In order to do so, we do not get bound by conventional practice and ideas, and continue to pursue the way of being the next-generation gallery, utilizing technologies.

Additionally, in order to expand the possibility of our service to the U.S. and other countries, we have a branch in Chicago and will actively provide such services in both Japan and the U.S. in the foreseeable future.
